Welcome Message

We are immensely delighted to welcome you to the **11th International Conference of Geriatric Orthopaedic Society of India "GOSICON 2023"** which will be held on **27th & 28th October, 2023** at **Hotel Royal Orchid**, Durgapura, Jaipur.

Geriatric Orthopedic Problems have assumed great significance in the recent times due to the ever increasing geriatric population thanks to the increase in the life expectancy of people and improved health care across the globe and India. Bulk of our orthopedic surgery practice concerns this population. The challenges of treating a geriatric patient is different due to the associated multiple co-morbidities, co- musculoskeletal conditions, mental, emotional and psychosocial problems. Treating a geriatric patient demands special skills from we orthopedic surgeons for which we have not been trained. GOSI was started with an intention of creating a forum which focuses on training the orthopedic surgeons to gear up to the challenges of managing a geriatric orthopedic patient.

This unique sub-speciality of orthopaedics covers wide range of subjects : Trauma, Spine, Arthroplasty, Rheumatology, Endocrinology, Medical Issues, Rehabilitation etc.

We are confident that your participation in this conference will enrich your knowledge and broaden your perspectives. Please find attached the conference brochure, which provides detailed information on the conference program, registration, and accommodation.

We feel immense pleasure in inviting all of you in this exciting and interesting academic feat in the heritage city of Jaipur along with delicious traditional Rajasthani food and enthralling entertainment.

If you have any questions or concerns, please do not hesitate to contact us.
